

MBOWOU IBRAHIM JUNIOR

Fullstack Developer | PHP · Laravel · ReactJS · MySQL · REST API

Backend-oriented Fullstack Developer with over 2 years of experience in a company. Proficient in PHP, Laravel, REST API, and MVC architecture. Rigorous, autonomous, and accustomed to remote teamwork.

EXPERIENCE

CFAO Mobility Cameroon, Douala · Programmer Analyst (Internship)

JULY 2025 TO PRESENT

- Backend overhaul of an LMS (PHP 7.3): MVC architecture, business logic, application security.
- Optimization of MySQL and MongoDB databases: queries, indexing, performance.
- Development of new REST API features and bug fixes in production.
- Ensuring availability of web applications and databases.

MH-Tech, Douala · Freelance Fullstack Developer

JULY 2025 TO PRESENT

- Development of REST API features (Laravel, MySQL) fully remote.
- Application of backend best practices (maintainable code, unit tests, documentation).
- Version control with Git/GitHub, continuous integration (CI/CD).
- Training interns and transferring skills for succession.

MH-Technologie, Yaoundé · Consultant

AUGUST 2024 TO JUNE 2025

- Maintenance and evolution of MS-SCHOOL software with Laravel and MySQL.
- Integration of new features and unit tests in an agile environment.
- User management, access rights, and application modules.
